

Rust-Inhibiting Alkyd Primer

Fast-drying primer built to help equipment last

Everyone desires the same performance properties from their equipment: durability, reliability and lifespan. One way to extend the life and improve the durability of your equipment is by coating it with SPECTRACRON® 111 Series primers. Engineered to aid in rust resistance, *Spectracron* 111 Series primers create a strong layer of corrosion-inhibiting surface protection that may help to extend the life of your equipment.

Product Benefits

- Fast drying
- Developed with corrosion inhibitors
- Universal primer
- Can be applied to blasted surfaces
- No recoat or topcoat window
- Dip-tank capable

Segments

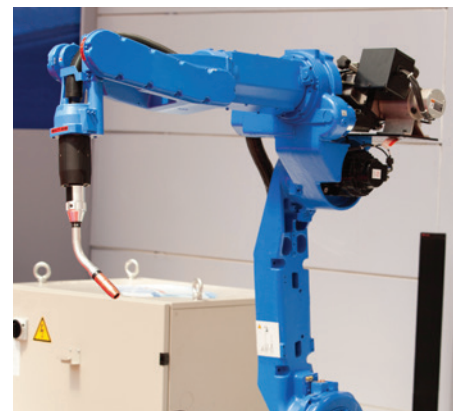

Agricultural Equipment

Heavy-Duty Equipment

Industrial Equipment

Material Handling

PPG Spectracron® 111 Series

Paired with more than 1,000 professional service centers across North America and an industry-leading technical team, the PPG TRUEFINISH® team provides a vast lineup and knowledge of high-quality industrial coatings backed by local store stocking and delivery. This system ensures you get the products and knowledge you need when you need them.

Product Characteristics

| | |
|-------------------------|--|
| Color | Custom colors, Gray, Red Oxide, White, and Clear tint base |
| Gloss @ 60° (ASTM D523) | ~20 |
| VOC | 4.5 lbs./gal. |
| Applications | Cold-rolled steel, hot-rolled steel, blasted steel, aluminum |

Performance Properties*

| | |
|---|--|
| Pencil Hardness (ASTM D3363) | HB |
| Conical Mandrel Bend (1/8", ASTM D522) | Pass, 180° |
| Adhesion (ASTM D3359) | 5B - Excellent |
| Humidity Resistance (300 Hours - ASTM D2247) | Excellent, no blistering |
| Salt Spray Resistance (300 Hours - ASTM B117) | Excellent, 1-2 mm creep |
| Chemical Resistance | Good |
| Recommended Topcoats | <i>Spectracron 100, Spectracron 110, Spectracron 150</i> |

* These results were obtained over iron phosphate-treated cold-rolled steel panels.
