

Anti-corrosive epoxy primer

Corrosion-inhibiting, high-build primer

Utilizing two-component epoxy technology, SPECTRACRON® 573 Series high build anti-corrosive primers are engineered to keep equipment in harsh environments looking good. *Spectracron 573 Series* primers are formulated specially for increased sag resistance making it easy to apply high film builds which help fill surface imperfections or blast profiles.

Product Benefits

- Rust-inhibitive formula
- Excellent filling properties
- Excellent chemical and corrosion resistance
- Strong adhesion to a wide array of substrates
- Wet-on-wet primer-to-topcoat capabilities
- Capable of high film builds with excellent sag resistance
- No chrome or lead
- Low VOC ≤ 2.1 lbs./gal. (252 g/L)

Segments

Agricultural Equipment

Fabricated Metal

PPG Spectracron® 573 Series

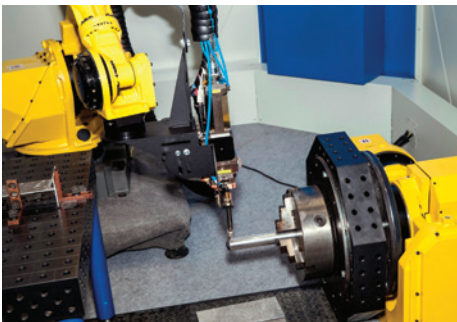

Paired with more than 1,000 professional service centers across North America and an industry-leading technical team, the PPG TRUEFINISH® team provides a vast lineup and knowledge of high-quality industrial coatings backed by local store stocking and delivery. This system ensures you get the products and knowledge you need when you need them.

Product Characteristics

Color	Black, gray, white, clear tint base
Gloss @ 60° (ASTM D523)	5 - 15
VOC	≤ 2.1 lbs./gal. (252 g/L)
Applications	Blasted cold-rolled steel, hot-rolled steel, aluminum, galvanized, galvaneal, some plastics and fiberglass

Performance Properties*

Pencil Hardness (ASTM D3363)	F
Adhesion (ASTM D3359)	5B
Humidity Resistance (1,000 Hours - ASTM D2247)	Pass
Salt Spray Resistance (1,000 Hours - ASTM B117)	Pass
Chemical Resistance	Pass
Recommended Topcoats	<i>Spectracron 360, Spectracron 370, Spectracron 380, Spectracron 390-UV</i>
