

High Build Epoxy Primer

Durable, corrosion-resistant protection

Proven on heavy-duty and construction equipment, SPECTRACRON® 531/532 Series primer promotes adhesion and corrosion resistance that establishes tough and durable first-layer protection. With a one-to-one mix ratio and high film build capabilities, this primer delivers aggressive performance from a two-component epoxy, but is engineered with easy application capabilities that allow you to create a smooth finish on difficult-to-coat machinery and equipment.

Product Benefits

- High film build capabilities
- Rust inhibitive
- Fast topcoat and handle times
- Excellent chemical, abrasion and corrosion resistance
- Long pot life with no induction time
- Ideal for manual mix and plural component equipment
- Compatible with a wide range of topcoats

Segments

- Agricultural Equipment
- Custom Coaters
- Fabricated Metal
- Material Handling
- Transportation

PPG Spectracron® 531/532 Series

Paired with more than 1,000 professional service centers across North America and an industry-leading technical team, the PPG TRUEFINISH® team provides a vast lineup and knowledge of high-quality industrial coatings backed by local store stocking and delivery. This system ensures you get the products and knowledge you need when you need them.

Product Characteristics

Colors	Gray, Black
Gloss @ 60° (ASTM D523)	20
VOC	4.5 lbs./gal. (540 g/L)
Applications	Cold-rolled steel, hot-rolled steel, aluminum

Performance Properties

Pencil Hardness (ASTM D3363)	2H
Adhesion (ASTM D3359)	5B - Excellent
Humidity Resistance (500 Hours - ASTM D2247)	Pass
Salt Spray Resistance (700 Hours - ASTM B117)	Pass
